Maruti AutoCard Loyalty Program - Standard Operating Procedure

About AutoCard

Maruti AutoCard is a unique customer loyalty program designed exclusively for the owners of Maruti Suzuki Vehicles. This program is an engaging and unique initiative for customers and let them enjoy maximized benefits and valuable experiences.

With Maruti AutoCard customers not only are rewarded on spends, but also on referrals they make towards Maruti Suzuki. Membership benefits are awarded to members in terms of points where 1 point equals to Rs 1. The enrollment fee for membership program is INR 400+GST. AutoCard is an “Instacard” that means that member can get the card instantly at the time of enrollment.

Any person who desires to become a member of AutoCard Loyalty Program shall be required to fill an Application Form and submit documents described therein. In case of furnishing false, untrue, or incomplete information, or non-submission of any document, Maruti Suzuki India Ltd reserves the right to accept or reject the Application and their decision with regard to such acceptance or rejection shall be final and binding and non-contestable.

Member can avail **Maruti-Suzuki AutoCard** points on below mentioned services of Maruti Suzuki.

- I. Insurance
- II. Insurance Renewal
- III. Extension of Warranty
- IV. MGA (Maruti Genuine Accessories) Purchase
- V. MGP (Maruti Genuine Parts) Purchase
- VI. Car Services
- VII. Repair

Benefits of AutoCard

- 3% Points on all spends within the Maruti Suzuki Network.
- 1000 Points on referring your friends and family members to buy a new Maruti Suzuki car.
- 3000 Points as exchange Loyalty Bonus when you exchange your existing car. This bonus would be over and above the additional discounts available at the time of exchange.
- 100 Points as Joining Bonus.

Value of 1 Point = 1 Rupee

Cost

One-time fee is Rs. 400* + GST. This is non-refundable.

Note: *Once time fee of the AutoCard is subject to change. Terms & Conditions Apply.

Point Earning and Point Redemption Criteria

Earn Points

- ✓ Member gets 100 points as a part of joining bonanza.
- ✓ Member gets 3 point for every INR 100 spend at the Maruti network that can be roughly translated as 3% Points on all spends within the Maruti Suzuki Network.
- ✓ Member gets 1000 points on every successful referral resulting into sale at Maruti network.
- ✓ Member gets exchange benefit of 3000 on exchanging an old Maruti Suzuki Car with new one.
- ✓ Every single point worth Rs 1 in monetary terms.

Note: It's important to get your AutoCard Swiped before leaving dealer workshop or showroom so as to get points accumulated in it.

Redeem Points

Members can redeem AutoCard at selected Maruti Suzuki dealerships once they have earned a minimum of 300 points. Members can redeem their earned AutoCard Loyalty point through below mentioned modes.

- **Purchase of Products/Services within the Maruti Suzuki network:** Members can redeem accumulated points anytime at the Maruti Suzuki network to make payments for vehicle maintenance/repairs, or for purchase of Maruti Genuine Parts, Maruti Genuine Accessories, Maruti Insurance and other consumables.
- **Exchange of existing Maruti Suzuki car for a new one:** Members can use accumulated points while exchanging old car with new one. While exchanging the car members will also get exchange loyalty bonus of 3000 points.

Member's Enrollment

Members can enrollment in Maruti-Suzuki AutoCard at below mentioned location.

- Maruti Suzuki Showrooms
- Maruti Suzuki True Value Outlets
- Maruti Suzuki Authorized Workshop/Service Centers
- Maruti Suzuki Driving Schools

MRM Scope of Work in Maruti Suzuki AutoCard Loyalty Program

- Maruti-Suzuki AutoCard KIT and Card processing and dispatch of Cards and KITs as per Dealer Order.
- Application Processing and Card Activation.
- Management of customer's point related transactions in the system
- Management of Backend transactions by IT.
- Generation of Debit Credit Report and Reconciliation Report as per point earning and redemption logic.
- Sharing Monthly AutoCard program progress MIS with Maruti Suzuki

- Help Desk

Kit Processing

MRM is entitled to print and fulfill cards and kits for AutoCard Loyalty program. Below is step by step process for Card and Kit printing and its fulfillment.

- Preprinted kits' and blank cards' stock is maintained at MRM.
- IT Backend team generates a unique card number & then cards are printed on a daily basis to ensure kits availability.
- Printed card are then put through QC and then handed over to fulfillment team
- Fulfillment team then prepare the kits by inserting the cards & other elements.
- Each kit has a bar code sticker with the card no. mentioned on it.
- Prepared kits are then stocked and are ready to dispatch as per dealer/NM (Network Manager) request.

Dealer Order & Dispatch

CPA (Central Processing Agency) that is currently MRM accepts KIT request through either of the below channels.

- Dealer
- Network Manager

Below is step by step process detail of Dealer Order and Dispatch process.

- CPA (Central Processing Agency) receives the kits order along with the quantity and the dealer details. All Request are received on mails.
- If the request have come from the dealer an approval mail is required from the Maruti Suzuki **Network Manager/Head Office**.
- Post approval and verification of the order CPA punches the order in the software.
- The punched orders then gets visible to the dispatch team for further processing.
- A monthly MIS of all the dealers processed orders are shared with MSIL.
- Post-dispatch the **AWB no. (Airway Bill Number)** along with the dispatch date is shared with the dealer and Network Manager.
- Card nos. of the kits are tagged to the individual dealers before dispatch for future reference.

Application Processing and Card Activation

Dealerships/Other authorized Maruti-Suzuki outlets enroll members in the AutoCard Loyalty Program and send hardcopies of AutoCard enrollment to MRM (Central Processing Agency).

Below are standard steps for Application processing and Card Activation.

- MRM receives enrollment application consignments coming from dealers/other Maruti-Suzuki Outlets.
- Reception executive stamps the envelope with the current date and make an entry in the inward register.
- Logbook entry is done by counting the forms received.
- At the same time entry of application count along with received date is done in system.
- Manual scanning of Application and its supporting document is done to authenticate its completeness.
- Applications are then sent for Data entry. There is a process of double entry of mandatory fields for cross checking the Member's data.
- Post Data entry the enrolment data is segregated into three separate categories:
 - Accepted
 - Rejected
 - Hold
- Cards of all the accepted applications are processed and activated from the backend system.
- Post activation a welcome SMS communication is sent to the member highlighting the program benefits.

Reasons and way forward on Hold & Rejected cases

Reasons for hold cases

Cases where any one of these field like Name, Phone/mobile Number, AutoCard Number, Vehicle model & Chassis and VIN are not available are considered as hold cases.

Reasons for rejected case

- Ownership proof Missing/Mismatch
- Authorization signature not available on application

Way forward:

All rejected/hold applications are sent back to the respective dealers along with a letter having the reason for hold/rejection.

Mandatory Fields for Card Activation & Chassis Validation

Mandatory fields required

- Name
- Residence Phone/Mobile No.
- Vehicle Model and Chassis Number
- VIN.
- Car Ownership proof
- Signature of Member
- AutoCard no.

Chassis Validation

- System validates uniqueness of vehicle on the basis of Model and Chassis combination.
- System pops up the warning for duplicate chassis and displays the old details on screen at the time of data entry of duplicate combination
- **Scenario 1**
All the cases where member details are same then the account will be merged, considering the MSIL bonus once only.
- **Scenario 2**
All the cases where member details are different then latest member will be kept active in the records and old member's account will be deactivated.

Accepted Vehicle Ownership Documents & Fields for double entry

Vehicle Ownership Documents

- Retail Invoice of the Vehicle
- Tax Challan
- Service Invoice of the Vehicle
- Copy of Insurance
- Registration Certificate
- Or any other document where vehicle & member details are mentioned

Fields for double entry

- Loyalty Card No
- Name On Card
- Car Model
- VIN.
- Chassis No.
- Engine No.
- Date of Birth

Application Processing TAT

Application Processing TAT is defined for various activities associated with application processing and Card activation in order to standardize the work process and maintain efficiency. Below the list of defined TAT for Application processing and card activation.

Day1: Receiving and Logbook Entry

Team receives the consignments from the dealers and acknowledges the same and maintains a logbook entry with the received date and time.

Day2: Data Entry

Data entry team enters the entire application information for further processing.

Day2/3: Card Activation if accepted

During 2nd and 3rd Day if the application fulfills all the criteria's then the program team update the card number as active for use.

Day4: Dispatch the Rejected Forms:

All the rejected application are sent back to dealership for correction or update along with an Error MIS.

Note: TAT applicable for the capacity of around 1200 applications/day & will differ in case of more inflow.

MDS (Maruti Driving School) AutoCard Enrollment Process

MDS (Maruti Driving Schools) are also entitled to enroll member in AutoCard Loyalty. In case of MDS AutoCard enrollment, members get 100 joining points. MDS enrolled members also get 1000 points that remain inactive and only gets active once the MDS enrolled member purchase a new car or exchange the old car with new one.

MDS enrollment activation requests comes through e-mails and application. Below is the Application Process and Card Activation process details for both channels.

Through email

Step1:

On Daily basis, MDS AutoCard enrollments mail are received at program center containing all the mandatory information.

*Trainee ID is mandatory in the case of MDS AutoCard applications.

Step 2:

Program center cleans this file and upload it in application module for further processing.

Step 3:

On the basis of information provided, system automatically decides whether application is accepted or on hold.

**If trainee Id not mentioned, then system will put this enrollment on hold.

Through Application Form

Step 1:

Program center receives the physical application form and do the log book entry.

Step 2:

During data entry, system decides whether this is fresh form or supporting for data received through mail.

Step 3:

If data already received against the form, then system tags the application against the data and modify details if there is any change in information from soft data received earlier.

**In case of fresh enrollment, system processes it as new enrollment.

Point Earning

Preloaded points post card activation:

- 100 MSIL bonus points
- 3000 exchange points

Avenues of points earning:

- Free Service
- Paid Service
- Insurance
- MGA
- Repair
- Extended Warranty
- Insurance Renewal
- MCP (Maintenance cost protect program)

Point Earning Process at Dealership

- Members does a transaction at the dealership & visit the AC desk for points' updating.
- AC executive goes to the points award module, swipe the card & enters the transaction details
- Post submitting of the request, system checks for the mandatory fields & pop-up an error message in case of incorrect or mismatch information.
- If all the information required are correct, the request will be submitted successfully and a transaction receipt is generated.
- Member gets the points credited in their account & they receive a confirmation SMS on their registered mobile number

Backend transaction processing

Requests are taken only over E-mails

- **Requirements**
 - Scan of Invoice
 - Transaction details in a pre-defined format
 - MSIL approval is required if transaction amount is greater than 35K.
 - MSIL or dealer consent is required if backend service is requested from customer.

- **Backend transaction will be executed only for below cases.**

- If transaction is older than 1 month.
- If transaction Amount is greater than 35K.
- If software at dealers end is not working.
- If problem in AutoCard while swapping at dealers end.

Checks on Points Earning

1. Only 1 service (Free/Paid) will be allowed in a span of 90 days for one vehicle.
2. Only 1 repair transaction will be allowed in a span of 90 days against one vehicle.
3. Only 1 Insurance (New/Renewal) transaction will be allowed in a span of 300 Days (approx. 10 Months) against one vehicle.
4. Only 1 extended warranty will be allowed in a program life against one vehicle.
5. Only 1 MCP transaction will be allowed in a span of 300 days (Approx. 10 Months) against one vehicle.
6. Only 1 transaction of MGA in a span of 90 days.
7. Transaction Amount that is greater than 35K will not be allowed at dealer's end.
8. If transaction is older than 1 month, Points awarding will not be allowed by the dealer.

Two or more than two Chassis Addition for in a card

To make addition of chassis no. to AutoCard, below requirements needs to be followed:

- AutoCard should be active.
- Chassis will be added for Self or family members (Husband, wife, brother, sister, son, father, mother, daughter).
- However in some cases, Father in law, Daughter in law relationships are also accepted but this requires multiple relationship proofs.
- Request accepted over Email only either from customer or dealership.
- Car ownership document is required (RC/Sales or service invoice/Insurance/tax invoice)
- Relationship proof (If new chassis is not registered on customer's name)
- Confirmation mail will be sent after addition of chassis no. to the concerned AutoCard member.

Transaction validation

Card validation

- Mandatory swiping of physical AutoCard in application to populate card number in designated field
- Card number gets validated from centralized server for transaction processing
- In case of invalid card number, system will not allow any transaction and gives an error message.

Chassis validation

- AutoCard executive needs to enter the model and Chassis no.
- System checks the combination of model & chassis on centralized server. If valid, then system will allow the transaction.
- In case chassis is not registered, system provides an option to add a chassis.
- Only two chassis no. per card is allowed.
- In case more than two chassis is to be added then a formal request has to be sent to program center with proper documentation.

Duplicate Check

Duplicity check has been implemented on following fields:

- Dealer Code
- Loyalty Card Number
- Invoice Number
- If all above fields will be matched, then system will reject the transaction and a message will be popup on the dealers screen.

Limitations on Transaction count & amount

- Maximum of 4 transactions per card is allowed in a month.
- In case more than 4 transaction is to be added then the dealer needs to send a request in a predefined format to the program center.
- Transaction amount > 35,000 are not allowed through dealers end
 - For such transactions, program center can execute the transaction after written request from dealer which is then approved by the network managers.
- Points are not awarded on the Tax amount.

Point redemption

Points earned through the AutoCard program can be redeemed against any of below:

- **Redemption on purchase of Products/services transaction within the Maruti Suzuki network:** Members can redeem accumulated points anytime at the Maruti Suzuki network to make payments for vehicle maintenance/repairs, or for purchase of Maruti Genuine Parts, Maruti Genuine Accessories, Maruti Insurance and other consumables.
- **Exchange of existing Maruti Suzuki car for a new one:** Members can use accumulated points while exchanging old car with new one. While exchanging the car members will also get exchange loyalty bonus of 3000 points.

Redemption on Service & other Transactions process

- Members visit the AutoCard desk for points' redemption.
- AutoCard executive goes to the points redemption module, swipe the card & check balance of the available points.
- Enters all the mandatory information regarding transaction and submit.
- System checks all the validations and process the transaction on centralized server.
- Transaction receipt is generated at Dealer Loyalty interface.

Note: Member needs to have crossed threshold of 300 points once for being eligible for points' redemption.

Redemption on Service Transaction validation

Card validation

- Mandatory swiping of physical AutoCard in application to populate card number in the designated field.
- Card number gets validated from centralized server for transaction processing.
- In case of invalid card number, system will not allow any transaction and gives an error message.

Chassis validation

- AutoCard executive needs to enter the model and Chassis no.
- System checks the combination of model & chassis on centralized server. If valid, then system will allow the redemption.
- In case chassis is not registered, system asks for the option to add a chassis.
- Only 2 chassis no. per card is allowed at dealers end.
- In case more than 2 chassis is to be added then a formal request has to be sent to program center with proper documentation.

Limitations on Transaction count & amount

- Invoice amount > 35,000 are not allowed through dealers end.
 - For such redemptions, program center can execute the transaction after written request from dealer which is then approved by the network managers.
 - Points can be redeemed on complete transaction amount including Tax part also.

Backend process for Service & other Transactions

Requests are taken only over Emails

Requirement

- Scan copy of Invoice
- Transaction details in a pre-defined format
- MSIL approval is required if transaction amount is greater than 35K.
- MSIL or dealer consent is required if backend requested from customer.
- Backend transaction will be executed only for below cases.
- If transaction is older than 1 month
- If transaction Amount is greater than 35K.
- If software at dealers end is not working.
- If problem in AutoCard while swapping at dealers end.

Process of Exchange Redemption

- Members visit the AutoCard desk for points' redemption.
- AutoCard executive goes to the exchange redemption module, swipe the card & check balance of the available points.
- Executive enters all the mandatory information regarding transaction (Old & new model and chassis).
- System checks all the validations and process the transaction on centralized server
- Transaction receipt being generated at Dealer Loyalty interface.

Backend process for Exchange Redemption

Requests are taken only over Emails

Requirements

- Scan copy of new car Invoice
- Transaction details in a pre-defined format
- MSIL or dealer consent is required if backend requested from customer.
- Backend transaction will be executed only for below cases.
- If transaction is older than 1 month
- If software at dealers end is not working.
- If problem in AutoCard while swapping at dealers end.

Exchange Redemption validation

Card validation

- Mandatory swiping of physical AutoCard in application to populate card number in the designated field.
- Card number gets validated from centralized server for transaction processing
- In case of invalid card number, system will not allow any transaction and gives an error message.

Chassis validation

- AutoCard executive needs to enter the new and the old model and Chassis nos. for both of the vehicles.
- System checks the combination of old model and chassis on centralized server. If valid, then system will allow the redemption.
- If new chassis no. is already registered in AutoCard, system will not allow to execute transaction.

Limitations on Transaction count & amount

- Member needs to have crossed threshold of 300 points once for being eligible for points redemption.
- Card should be activated for at least 1 month.
- In case the old chassis is not registered in the card, the dealer has to place a request to the program center along with the documents to get the chassis added to the card.

Process of New Car/MDS redemption

- Members visit the AutoCard desk for points' redemption.
- AutoCard executive goes to the new car redemption module, swipe the card and check balance of the available points.
- Executive enters all the mandatory information regarding transaction (New model and chassis).
- System checks all the validations and process the transaction on centralized server.
- Transaction receipt is generated at Dealer Loyalty interface.

New car/MDS redemption validation

Card validation

- Mandatory swiping of physical AutoCard in application to populate card number in designated field.
- Card number gets validated from centralized server for transaction processing.
- In case of invalid card number, system will not allow any transaction and gives an error message.

Chassis validation

- AutoCard executive needs to enter the mode & Chassis no. of the new car.
- If new chassis no. is already registered in AutoCard, system will not allow executing transaction.

Backend process for new car redemption

Requests are taken only over Emails.

Requirement

- Scan copy of new car Invoice
- Transaction details in a pre-defined format.
- MSIL or dealer consent is required if backend requested from customer.
- Backend transaction will be executed only for below cases.
- If software at dealers end is not working.
- If problem in AutoCard while swapping at dealers end.

Process for Redemption through partner vouchers

- Members visit the AutoCard program website.
- Enters the log-in credentials, in case of a new user they can register on the website.
- Post logging in the member can visit the partner page and select the partner of their choice.
- Member then places the redemption request against the selected partner.
- System checks the points available & authenticate the redemption request.
- Member gets the voucher details on their registered mail.

Referral

Referral process

Referral process is recorded through two mediums.

- DMS File
- Dealer mail

Process flow for referral received from DMS file

- Every Monday MSIL DMS system sends an automated mail along with all the referrals punched in DMS system.*
- MRM executive upload the file in system for further cleaning and data de-duping. There are In built **Checks** to authenticate the received details.
- MRM executive segregates these records dealer wise and sends confirmation mail to dealer's register E-mail Id provided by MSIL, with a CC to NMs
- Dealers are required to revert within 3 working days with their observation.
- After 3 working days, program center uploads all the referrals in member account, post reconciling the points' debit credit details.
- At month end, program center generates the cumulative debit report for all such referrals.

Note: *Ideally file should contain data of last week only.

Referral process through dealer's mail

- Dealer sends a mail requesting for referral point credit in a defined format to the program center.
- All mails are compiled and are processed twice in a week Tuesday & Friday.
- The Program Center verifies the details and enters them in the system which checks the necessary information and duplicity if any.
- Dealer wise mails along with the all the referral request is sent to the respective NMs (Network Manager) along with a CC to the dealer's registered email IDs.
- Post approval from the NM (Network Manager) the case is processed and the points are credited in the member's account.
- Program Center sends the point upload confirmation mail to the dealer.

Referral checks & limitations

Backend checks of the referral for file received from DMS as well as Dealer's end

- System checks for validity of loyalty card number and dealer code. All the records having invalid loyalty card numbers and non-program dealer codes are excluded.
- System checks for duplicate entries on the basis of dealer code, invoice number and invoice date. During this process all the duplicate record are being excluded.

- System produces a file having all the valid referral entries which can be credited further.
- Each member account allows only 2 referrals to be added in a month and more than 5 referrals in a quarter.
- If there is more than 2 referrals for 1 month or more than 5 referrals in a quarter, then following process is followed:
 - Dealer will send written request to program center & they will take approval from the dealer GM as well as the respective network managers
 - Post approval, program center will credit additional referral in member's account and confirms back to the dealer
- If in DMS files, we receive more than 2 referrals in a month, then system keeps it on hold for that month till further approvals.
- If any member have more than 5 referrals in a quarter then system will hold any further referrals.

Backend transactions & Queries managed by IT

Below is the list of **Maruti-Suzuki AutoCard** loyalty program's transactions and queries handled by Backend IT team.

- ✓ Card Reactivation
- ✓ Referral Points
- ✓ Points rewarding
- ✓ Points redemption
- ✓ Transaction removal
- ✓ Chassis Addition
- ✓ Lost/Duplicate card reissue
- ✓ Chassis removal

Card Reactivation Process

Reactivation of blocked AutoCard members

- ✓ Requests are taken from members, dealers and NMs (Network Managers).
- ✓ Post receipt of the request the member's transaction details are shared with Network Managers for approval
- ✓ Post NMs approval member account is activated and the blocked transactions are unblocked.
- ✓ Based on Debit Credit of points, the unblocked transactions are included in the debit credit batch for that month.
- ✓ TAT: 2 working days (Subject to approvals)

Transaction removal

- Gives the provision to the dealers to void any type of transaction after 24 hours.
- Request to the helpdesk can be given only for the transactions which are older than 1 day.
- Post placing the request the helpdesk seeks approval over a mail from the Network Managers.
- Post approval from the Network Managers the transaction removal process is initiated by the IT team.
- A confirmation mail is sent to the respective dealer.
- TAT: 2 working days (Subject to approvals)

Lost Card

Request from dealer

- Request are received through mails/calls.
- Members' details are confirmed before taking the request.
- Request is then recorded in the system and the backend process is initiated.
- Earlier card is blocked and a new card no. is issued to the member
- 50 points are deducted from the member's account & the new card is dispatched to the dealer/member's address.

Request from members

- Request are received through mails/calls.
- Members' details are confirmed before taking the request.
- Request is then recorded in the system and the backend process is initiated.
- Earlier card is blocked and a new card no. is issued to the member.
- 50 points are deducted from the member's account and the new card is dispatched to the member's address.

TAT: 2 working days including printing & dispatch of the card.

Chassis removal & addition

- Email request is required from member or dealer.
- Request should have member's card no. and name.
- Post confirmation the chassis is delinked from the member's account.
- Post processing the request a confirmation mail is sent to the requestor.
- For addition of a new Chassis against the old one the ownership document is to be sent by the members/dealers.

TAT: 1 working day (depending upon the document availability)

Points Award Redemption Debit credit Report generation

- For all the points awarded by the dealers during the month, a dealer wise debit report is being generated and shared with MSIL for further processing.
- Similarly, for all the points redeemed at dealerships during the month, a dealer wise credit report is being generated and shared with MSIL for further processing.
- A reconciliation report for balance points is being shared in pre-defined format with MSIL.
- All the debit credit report generated on the basis of dealer VCF code which is provided by MSIL at the time of dealer addition or with dealer directory.
- An email is being sent to the dealer CEO mentioning the debit/credit that have done to the dealerships.

Process for Incentive generation

- Dealers are eligible for Rs. 100/- as incentive on every successful activation.
- It includes all the applications accepted in that month and received in or after Dec 2015. This logic has been implemented from Dec 2015.
- MDS (Maruti Driving School) applications are also being considered for incentive calculation.
- After month closure, backend team generates the raw data of forms receiving from the application and prepares the incentive report.
- Post verification, incentive report is shared with MSIL.
