Preface

About This Manual

This manual describes the steps involved in initiating returns and checking return status using ReverseLogix Customer portal.

Please note that menus and modules described in this manual are user specific, therefore a customer might have fewer or more menus and modules in their system than described here.

Conventions Used in This Manual

In this manual, certain words are represented in weights and/or within quotation marks. This indicates that they are user interface items such as buttons and messages. Additionally, it uses notes and screenshots to draw user attention to certain pieces of information.

1.0 Overview

Hassle free returns directly impacts a brand's Net Promoter Score (NPS) and Customer Satisfaction (CSAT). Reverse Logix customer portal is designed to make returns quick and easy. It puts the customer in control while allowing the brands to create granular return policies. Every ReverseLogix customer portal runs on a separate cloud instance to ensure security of customer data.

1.1 About ReverseLogix

ReverseLogix is a comprehensive returns management system (RMS) that enables companies to streamline return requests, logistics, inventory and processing, connecting every point in the return lifecycle, all through an intuitive and flexible SaaS platform. Discover how you can optimize operations, create loyal customers and continually drive top-line revenue with a scalable solution that connects all the moving parts in the return ecosystem.

2.0 Accessing the Portal

To access the Returns Portal, open the [URL](#) in your web browser. The landing page of the portal is create your returns page which allows customers to create and track returns without signing in.

The screenshot shows the landing page of the Returns Portal. At the top, there is a navigation bar with a 'LOGO' placeholder, 'Create Your Return', 'Check Status', and 'Language:

- **Language** (English (Canada) and French (Canada))

3.0 Create Return

To start a return, locate the Search for your order to start your return request section on the landing page.

Step 1 – Search Order Using Order and Email

In the Order field, enter the order number for which the return is being created. In the Email field, enter the email address associated with the order. After entering both values, select Search.

[LOGO](#)[Create Your Return](#)[Check Status](#)[Language: !\[\]\(b70b7d97f7de05f0fa9d4a10201c3513_img.jpg\)](#)

If the order and email combination is valid, the system retrieves the eligible items for that order and starts the return creation workflow.

Step 2 – Provide Return Details

In Step 2, the portal displays all items associated with the order entered in Step 1. From this page, you select the items you want to return and provide required return details before continuing to the next step.

At the top of the page, the portal displays your name and the current date. To update your name, select the Edit icon next to the name fields and make the required changes.

The screenshot shows the Step 2 interface of the ReverseLogix portal. At the top, a progress bar indicates four steps: Step 1 (Search), Step 2 (Current, highlighted in blue), Step 3 (Details), and Step 4 (Confirmation). Below the progress bar, the user's name 'Ankita Deo' is displayed in a red-bordered box, with an edit icon to its right. The current date is 'April 20, 2026' and the invoice number is 'SO-QA900'. On the right, the 'Ship From Address' is listed: 'Ph: (987) 654 2222', 'Avenue rd', 'Brampton, ON, L6P4E4', 'CA'. Below this, the 'SELECTED ITEM(S) TO RETURN' section shows a table with one item: 'SKUAPI2'. The item's details include 'SKU: SKU_PAT_CAmxcZ0S' and 'Weight(Pounds): 2.5'. The 'Return Reason' is set to '--Select--' and the 'Comments' field is empty. A 'Return Type' dropdown is set to 'Return'. A 'SELECT ALL' checkbox is checked.

Provide return details for each item

The Selected Item(s) to Return section lists all items included in the order. Each item displays its SKU, quantity, weight, facility, and any dangerous goods classification.

You can select items in either of the following ways:

- Select the Select All checkbox to include every item in the order in the return request.
- Select the checkbox next to individual items to return only specific products.

Only selected items are included in the return.

Validation checks and error messages

The system performs multiple validation checks when you select Continue. If any validation fails, an error message appears and prevents you from proceeding until the issue is resolved.

Some common validation checks include:

- Mandatory fields marked with an asterisk (*) must contain valid values.
- All selected items must belong to the same facility.
- All selected items must have the same dangerous goods classification.

Hello, Ankita Deo!

Step 3 – Review & Confirm

In Step 3, customers will review all details entered in the previous steps and confirm packaging information before submitting the return request. No item details can be edited at this stage. If you need to make changes, select Back to return to Step 2 or Step 1 and update the relevant information.

In the Package Count field, select the number of pallets or packages that will be used to ship the return. The available options depend on the total quantity of items selected in the return request. Also depending on Package Count shipping labels are generated.

CONDITIONS OF CARRIAGE

IMPORTANT - PLEASE READ. The consignee agrees that the act of tendering the shipment to the carrier for transportation shall be sufficient to constitute signature of this bill of lading by the consignee and shall bind the consignee to the conditions of carriage stated below.

RECEIPT Carrier acknowledges receipt from the shipper, at the point of origin and on the date specified, the shipment described in this bill of lading in apparent good order, except as noted (contents and conditions of contents of shipment unknown), and agrees to carry and deliver the shipment to the receiver at the destination set out in this bill of lading, subject to payment of all freight charges. "Carrier" refers to Purolator Inc. and any connecting or other successive carriers involved in the transportation of the shipment herein described, including any of their respective subsidiaries, controlled entities, and their respective employees, agents and independent contractors.

LIMITATION ON LIABILITY Carrier's liability in respect of the shipment described in this bill of lading (including for any loss, damage, delay, misdelivery, non-delivery or failure to deliver) is limited to \$2.00 per pound (\$4.41 per kilogram) computed on the total weight of the shipment, unless a higher value is declared in the specially marked Purolator Ground Return Shipping label. "Declared Value for Insurance (DVI)" notwithstanding any declaration of the nature or value of the goods carried or any special agreement to the contrary, carrier is not liable under any circumstances for the consequences of delay, or for any indirect or consequential damages (including lost profits) however caused.

NOTICE OF CLAIM Carrier is not liable for any loss, damage or delay to any goods carried under this bill of lading unless notice of the claim setting out particulars of the origin, destination and date of shipment of the goods and the estimated amount claimed in respect of such loss, damage or delay is given in writing to the carrier within sixty (60) days after the delivery of the goods, or, in the case of failure to make delivery, within nine (9) months from the date of shipment. Subject to any overriding statutory provisions, the final statement of the claim must be filed within nine (9) months from the date of shipment, together with a copy of the past freight bill. If the Convention applies, other notice periods may govern. No claim will be entertained until all transportation charges due in connection with this bill of lading have been paid in full. All claims are subject to proof of amount of loss.

TERMS INCORPORATED BY REFERENCE Every service to be performed under this bill of lading is subject to the conditions of carriage contained in this bill of lading, including the terms and conditions contained in Purolator Inc.'s published terms and conditions of carriage and the terms and conditions prescribed by the law of the jurisdiction where the goods originate (including the uniform conditions of carriage themselves, if any). If the carriage involves an ultimate destination of a ship in a country other than the country of origin, the Convention (as defined below) may apply and limit the liability of the carrier in respect of loss of, damage to or delay of cargo. "Convention" means the Convention for the Unification of Certain Rules relating to International Carriage by Air, signed at Warsaw, Poland, 12 October, 1929, or the Convention for the Unification of Certain Rules for International Carriage by Air, signed at Montreal, Canada, 28 May, 1999, or those Conventions as amended or supplemented as may be applicable to the carriage hereunder.

MISCELLANEOUS Unless otherwise indicated, the consignee's name and address is the sender's name and address indicated on this bill of lading, and the latter is the place of execution and the place of departure; the consignee's name and address is the receiver's name and address indicated on this bill of lading, and the latter is the place of destination; and the date indicated on this bill of lading is the date of execution. There are no specific stopping places which are agreed to, and the carrier reserves the right to select the route and the mode of transportation that the carrier deems appropriate. The consignee warrants that the shipment is properly described on this bill of lading and on any accompanying documentation, and that the shipment is properly marked, addressed and packed to ensure safe transportation in accordance with the carrier's ordinary care in handling. Unless otherwise indicated on this bill of lading, the consignee warrants its right to determine the nature or dimensions of the shipment, and to indicate same on this bill of lading. The consignee appoints the carrier as its agent for the performance of customs clearance and selecting a carrier for the shipment.

ENTIRE AGREEMENT The terms and conditions contained in this bill of lading, including those incorporated herein by reference, constitute the entire agreement relating to the carriage of the shipment described in this bill of lading, and no agent, servant or representative of the carrier or consignee may be deemed to offer, make or otherwise modify any provision of this agreement. In tendering the shipment described herein for carriage, the consignee agrees to these terms and conditions on his own behalf and on behalf of the consignee and any other party claiming an interest in this shipment.

4.0 Check Status

The Check Status feature lets you view and track return requests (RMAs) using RMA and associated email. From this page, you can search for specific RMAs, review their current status, and view detailed information for each return.

The screenshot shows the 'Check Status' page. At the top, there is a navigation bar with a 'LOGO' placeholder, 'Create Your Return', 'Check Status', and 'Language: CA'. Below the navigation bar is a large blue banner with the text 'YOUR BRAND BANNER HERE'. Underneath the banner is a search section titled 'Search for your order.' It contains two input fields: 'Enter RMA# to search for your order' and 'Enter Email Address to search for yo'. To the right of these fields is a red 'Search' button with a magnifying glass icon.

Use the search boxes above the RMA list to quickly locate a specific return. You can search by RMA number and associated email and then click Search.

This screenshot is identical to the previous one, but the search fields are now populated. The 'Enter RMA# to search for your order' field contains the text 'R7-SO-QA900', and the 'Enter Email Address to search for yo' field contains the text 'ankita@reverselogix.com'. The red 'Search' button remains to the right.

The system opens the RMA details page for the selected return.

TERMS & CONDITIONS

The RMA details page displays complete information about the selected return, including:

- RMA number and tracking number
- Return initiation date
- Ship-from address
- Current return status, shown visually (for example, Initiated, In-Transit, Delivered, Processed)
- Item details such as SKU, quantity, return reason, comments, and dangerous goods classification

On the RMA details page, select the Shipping Label option to view the return shipping label. The label opens in a new browser tab, where you can download or print it as needed.

5.0 Toolbar Features

The top toolbar provides quick access to global features that are available from any page in the Returns Portal. These features let you switch the portal language and manage your user session.

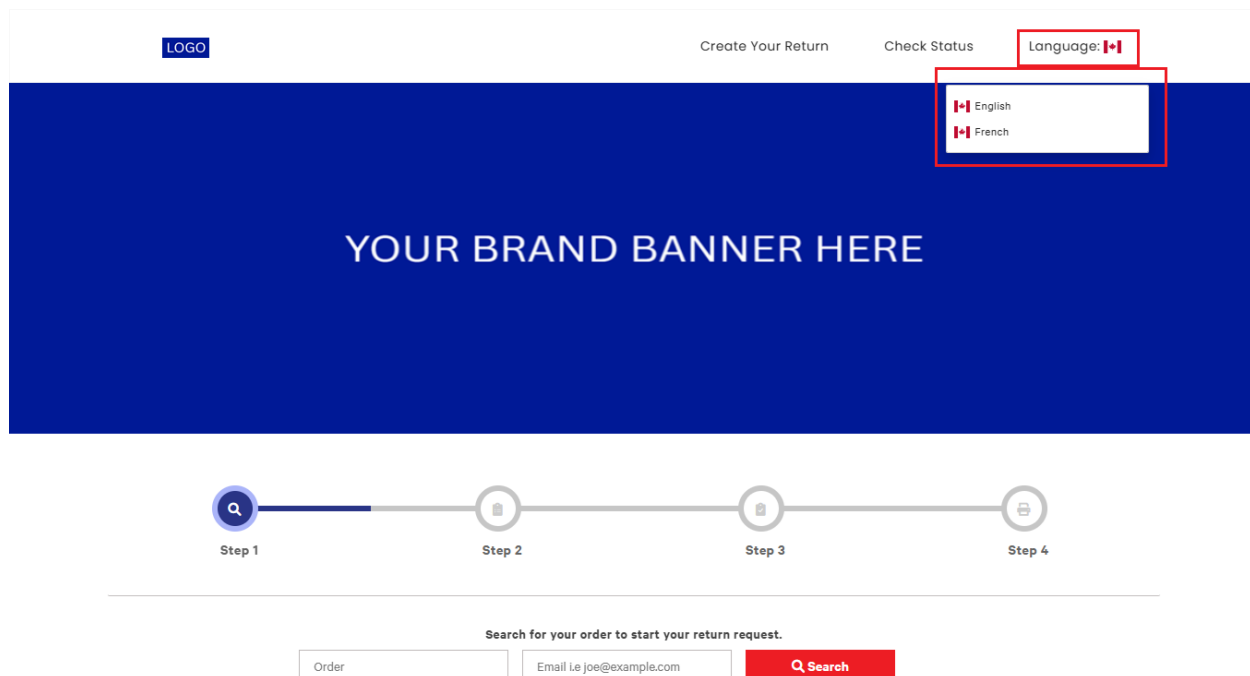

Change the portal language

You can change the display language of the Returns Portal at any time using the Language option in the top toolbar.

To change the language, select Language in the top-right corner of the portal, and then choose one of the available options:

- English (Canada)
- French (Canada)

After you select a language, the portal immediately updates all labels, instructions, and messages to the selected language.
